

Technical Accounting Services

Rely on our technical accounting aces when you're facing a new deal, an accounting change or a tricky transaction that tests your in-house skills. We take on the tough stuff.

Pain Points:

- Transactions outside of the routine can throw the accounting team off course
- Such deals often attract auditor scrutiny and sometimes regulators
- The team may lack in-house technical accounting expertise to correctly apply GAAP
- Accounting rules change all the time, further stretching the team's skills set
- Fast-growing companies need occasional access to reliable accounting pros

Solution:

- Anticipate issues and apply the correct accounting treatment every time
- Turn over tough transactions to accounting aces for analysis
- Minimize restatement risk by seeking out specialized skills when needed
- Apply scenario planning to deals to evaluate how the accounting will play out
- Access go-to experts for SEC comment letters and stock comp issues

Benefits:

- Peace of mind, knowing you have experts when you need them
- Expert interpretation of applicable accounting rules for your situation
- Memos and support schedules done correctly and on time
- Implementation of new rules come with a game plan
- Accurate financial statements, preventing the need to restate financials

RoseRyan's Technical Accounting Group helps companies at all stages—from startup through Fortune 500—stay ahead of the curve. We're on top of all the latest accounting rules and strategies.
